Workshop for Foreign Students

We held a workshop for foreign students to study local culture and customs by visiting sightseeing spots and historic sites around the Nansatsu area.

We visited Lake Ikeda in Ibusuki-city known for particularly giant eels, Tosenkyo valley, known for "Soumen" (thin white Japanese noodles) and its unique way the noodles are eaten called "Somen-Nagashi, then Kaimon Shrine where they prayed for the success of their college lives in Japan.

We all hope that the students enjoyed themselves and learned a lot from this workshop.

Our foreign exchange students gave presentations about their home countries as part of the panel displays organized by City International Association. They joined a paper handcraft workshop as a teacher and enjoyed helping children make paper craft mandarin oranges and said that it was a lot of fun, and would like to participate again.
